CHOLERA ON SHORE.

But Two Cases During the Past Twenty-Four Hours.

SOME DOUBT ABOUT THEM.

Sudden Deaths of a German Girl in Brooklyn and a Man in Williamsburg, and It is Believed They Died of Cholera. The Disease at Quarantine and Over the Ocean.

NEW YORK, Sept. 16.—Two suspected cases of cholera were found in Brooklyn yesterday. A young German girl, Mary Connity, was one and Simon Colinskis, of North Ninth street, Williamsburg, the other.

Mary Connity came to this city from Ireland six months ago. She remained with a family named Lyons, living at 692 Second avenue, until she secured employment seven weeks ago, when she entered the employ of Mrs. Maria Finn, who keeps a boarding house at 221 East Thirty-first street. Mrs. Finn has nine boarders, most of them in the theatrical profession.

Wednesday night she complained of cramps in the stomach and shortly afterward went to bed. She grew worse, purging and vomiting. A doctor was sent for, but he failed to respond. By midnight the entire household was aroused and excited at the girl's condition. Mrs. Finn had her removed to the Lyons home, where Dr. Kauk pronounced her a sufferer from Asiatic cholera.

How the girl contracted the disease is a mystery, and intense excitement prevails in the tenement house from which she had been removed.

Mayor Grant has issued a proclamation to the public, in which he says the health department has shown entire competence to deal with the cholera. He anticipates no spread of the epidemic, and asks the people to have confidence in the provisions adopted by the board for the safety of the people. He also invites their aid in enforcing sanitary regulations for the maintenance of health.

The board of coroners will co-operate with the health board in combating the disease, and all the coroners and their physicians are requested to be on duty every day so as to meet all emergencies. It was decided by the health board to send all immigrants who are sick on Ellis Island directly to North Brothers Island by boat, instead, of through the city as formerly.

Mr. J. Pierpont Morgan, treasurer of the chamber of commerce quarantine fund, reports that up to date he has received \$155,885.

It is said that rags from European ports are being landed in Brooklyn daily. The authorities have been notified and will make an investigation tomorrow.

The Hamburg-American Packet company paid the bill for furnishing the vessel New Hampshire and the steamboat Stonington, which amounted to \$12,646.14. General Passenger Agent Boas says it has cost the Hamburg company about \$1,500 a day to feed the Normannia's passengers.

The alleged outbreak of cholera at Sweeney's hotel, Islip, turns out to be without foundation. It was nothing more than a scarlet fever case.

Nothing of consequence happened at Fire Island yesterday. The Normannia's cabin passengers will be conveyed to New York on the steamer Cepheus early tomorrow morning.

Commissioner Allen, who returned from lower quarantine at 3 o'clock, reports the death of a child on the Wyoming from cramp. He also reports Dr. Sauborn as saying that the deaths of Mrs. Person and her two children, who died on the Wyoming, were caused by poison administered by Mrs. Person on account of family troubles. It is said she was not married to the man who posed as her husband.

Dr. Jenkins received a report from Dr. Byron late last night, which disposed of the story in the afternoon of four new cases in the Scandia. Dr. Byron's report is as follows: "On our evening trip to ships at 8 p. m. we found all O. K. From Wyoming we took the body of a child, Lawrence Heinrichsen, seven months, which, according to diagnosis of ship's surgeon, died of malarious. I will perform autopsy and let you know results. On our island one death due to pneumonia after patient was over the cholera. Bohemia has not arrived so deny news. I am hourly expecting her."

The news in regard to the Bohemia which Dr. Byron wished denied was that she had been sighted off Fire Island with over ninety deaths.

Dr. Jenkins says the passengers held at lower quarantine will be disposed of as follows: When the Normannia's passengers now at Fire Island are released the Wyoming's cabin passengers will be sent to Fire Island; the well passengers at Hoffman Island transferred to Camp Low, Sandy Hook; the Scandia's steerage passengers to Hoffman Island, and the Rugia's cabin passengers to the New Hampshire.

OVER THE SEA.

Cholera Cases in Hamburg and Other Foreign Cities.

HAMBURG, Sept. 16.—Autumnal weather set in yesterday and the heat of the past two days has been relieving by light winds and falling thermometer. The highest temperature has been 73 degrees Fahrenheit.

There were 698 fresh cases of cholera yesterday, or twenty-nine more than Wednesday; 200 deaths, or three more than Wednesday; 331 burials, or eighteen more than Wednesday.

In the cholera hospitals and barracks the number of patients has fallen to

1,309, the lowest number of the last sixteen days. Two-thirds of the patients are women and children. The men now stricken, the physicians say, are those who have had little constitution to resist the disease. Many of them have been hard drinkers and others have been weakened by privations so as to become easily infected. Among people of normal health and habits the plague is believed to be at an end.

In Russia.

ST. PETERSBURG, Sept. 16.—There is a marked decrease in the number of new cases of cholera in Russia, particularly in the towns along the Volga and in the Caucasus, where the disease has raged with extreme violence. In St. Petersburg yesterday fifteen cases and fifteen deaths were reported, a decrease of six cases and an increase of two deaths compared with the returns of Wednesday. Of the total number of patients in the hospitals eighty were discharged yesterday as cured.

In Persia.

TEHERAN, Sept. 16.—The deaths from cholera in this city between Sept. 6, and Sept. 11 were 2,385. In the shah's camp at Sultaneyeh, about 139 miles northwest of Teheran, where he and the upper classes pass the summer, there have been 150 deaths from the disease.

No Funds for Hamburg Sufferers.

LONDON, Sept. 16.—The lord mayor has refused to receive contributions for the Hamburg sufferers from the cholera because the Welsh colliers fund and the St. James funds, he says, have prior claims on the generosity of the public.

Demoralized by Cholera.

SIMLA, Sept. 16.—Candahar is said to be completely demoralized by the cholera. Consequently the governor has postponed the date of the proposed attack on the hazards.

In Havre.

HAVRE, Sept. 16.—Thirteen new cases of cholera and two deaths were reported here yesterday, against eleven new cases and seven deaths for Wednesday.

In Paris.

PARIS, Sept. 16.—Up to 8 o'clock last night there were eight cholera deaths in this city. This is two deaths less than occurred Wednesday.

LAKE SCHOONER LOST.

The Thomas Parker Has Not Been Heard from Since Tuesday's Storm.

ALPENA, Mich., Sept. 16.—The propeller Josephine came in here at a late hour last night and reported the loss of the schooner Thomas Parker, which was in the Josephine's tow. The Parker parted her line in Saginaw bay, about twenty-five miles up from Point-aux-Barques.

The last seen of her she was standing on the port tack. She had on 1,400 tons of coal and was bound for Chicago. All ports have been wired, but she has not been heard from, and it is feared that she went down in the gale of Tuesday and that all on board have been lost.

Vessels reaching here last night report a terrible storm Tuesday night. The schooner Aunt Ruth was waterlogged in Saginaw Bay, but the crew are all safe. The Josephine is out looking for her lost schooner.

NEW IRON HALL.

It is in Existence but Completely Out of Power.

INDIANAPOLIS, Sept. 16.—The convention of members of the Iron Hall concluded its labors and adjourned. There is little prospect that the new order will ever come into possession of the funds in the hands of the receiver, though a committee was appointed and will confer with Judge Taylor with that end in view.

Judge Taylor has issued orders calling upon receivers of the Iron Hall branches in New York to remit all assets to Receiver Failey here in order to participate in the final distribution. They must report by Oct. 1. He restrains Receiver Failey into any litigation to settle the dispute between the two receivers in New York state.

Death Under a Train.

BRAZIL, Ind., Sept. 16.—The westbound passenger train, No. 11, on the Vandalia, due here at 12:34 a. m., struck a man just as the train was entering the city last night. The engineer saw him sitting on the track just as the engine rounded a curve, but not in time to stop the train. The man was terribly crushed about the back and chest, seven or eight ribs being broken. He was identified as James McKeis, twenty-one years old, a miner, living in Knightsville. He had been drinking, and sat down on the track and went to sleep. His injuries are fatal.

More From Maine.

LEWISTON, Me., Sept. 16.—The Evening Journal gives returns from 495 towns. The vote is: Cleaves, 67,510; Johnson, 54,938; Hussey, 3,318; Bateman, 2,924; Union Labor and scattering, 125; Republican plurality, 12,752. The remaining seventeen places two years ago gave 553 Republican and 421 Democratic votes. Congressman Dingley's plurality in the Second district is 3,725.

Uprising of Peasants.

BELGRADE, Sept. 16.—An armed uprising of peasants against the government is reported from Stopango. The peasants are led by Ranke Tajsich. They are said to have captured the communal house at Stopango and to have killed the judge. Belgrade is doubly patrolled.

Failed.

ST. JOSEPH, Mo., Sept. 16.—Nancy Hanks in an attempt to lower her record on a regulation mile track here yesterday, made the mile in 2:07 1-2.

Congressional Convention.

LAFAYETTE, Ind., Sept. 16.—Captain Martin Bell, of Kokomo, was nominated for congress in the Ninth district by the Democrats yesterday.

In the cholera hospitals and barracks the number of patients has fallen to

REPUBLICAN CLUBS.

Meeting of the National League at Buffalo, N. Y.

NOT A LARGE ATTENDANCE.

Only About One-Third of the Delegates Present at the Opening Session—An Ohio Man Explains the Reasons for the Slim Attendance.

BUFFALO, Sept. 16.—The National League clubs met here yesterday. The hour of meeting was set for 10 o'clock, but it was nearer 11 when the meeting was rapped to order by Republican State Committeeman John N. Scatcherd. Prayer was offered, and then Mr. Scatcherd in a few happy remarks introduced Supreme Court Judge Albert Haight, who made a brief address of welcome.

President Clarkson, on behalf of the clubs, thanked the speaker for the hearty welcome.

On account of the light attendance the president deferred the delivery of his annual address until the afternoon session.

The roll call showed that all the states and territories were represented except the following: Alabama, Georgia, Louisiana, Maine, Minnesota, Missouri, Mississippi, Montana, New Hampshire, North and South Carolina, North and South Dakota, Oregon, Vermont, Washington, Wyoming, Oklahoma and New Mexico.

It was voted to admit the American Republican College league to membership in the organization.

General Clarkson announced that committees were to be appointed on credentials, order of business, resolutions, league work, time and place of the next convention.

The roll of states and territories was called and the chairman of delegations named the members of the committee on credentials. The convention then adjourned until 2 p. m.

At 3 o'clock in the afternoon there were not forty people present, although the afternoon session had been called for 2 o'clock. It was estimated that out of 1,018 delegates only about 300 were present. It was 3:30 when the convention was called to order and President Clarkson asked the delegates to come to the front seats. Delegate Squires, of Ohio, arose and said that there was no doubt there would have been a much larger attendance had not the date been suddenly changed. The present date, too, conflicted with the Grand Army meeting at Washington, and so he desired to offer a resolution that the annual conventions be fixed for a certain date, and he named the first Wednesday in May of each year. The resolution was referred to the committee on time and place of meetings.

Mr. Harsh, of Iowa, offered the following resolution:

RESOLVED, That the convention learns with deepest sorrow of the severe illness that afflicts the honored wife of President Harrison and that we extend to her and to him our heartfelt sympathy, and that we assure the president and his family that we fervently join in the prayer of the whole American people, that the hand of Him who guards the sick and suffering may lift the shadow that now hangs about the bedside of a loved wife and mother.

The resolution was adopted by a rising vote. Mrs. Mansfield, of Indiana, secretary of the committee on credentials, reported that thirty-two states and the college league were represented. In addition to that list, Louisiana and Vermont had reported delegates present since the morning session. The committee recommended that as there were no contest the secretary's roll be made the permanent roll of the convention.

The report was adopted with a modification, providing that the future relation of the college league to the national league be referred to the committee on resolutions for further consideration.

The recommendation of the committee on credentials that the league of the District of Columbia be admitted to membership, was adopted.

The reports of the states upon the growth of clubs and the progress of the state leagues were then called for, and all except Arkansas submitted encouraging reports.

After transacting some routine business adjournment was taken for the day.

Next year's convention will be held at Louisville. The date will be selected by the national executive committee.

A mass-meeting was held in the music hall in the evening and was largely attended. James S. Clarkson presided. Hon. J. P. Dolivar, of Iowa, was the first speaker. When he finished Chairman Clarkson introduced Major McKinley, who spoke on the political issues of the day. After selections by the band and glee club, the Hon. J. Sloat Fassett was introduced and spoke briefly on the issues of the campaign. John N. Thornton of Nebraska, followed Mr. Fassett, and the meeting closed with a few remarks by Charles Morris, a colored man of Kentucky.

ARMY OF THE CUMBERLAND.

The Society Held a Reunion on the Field of Chickamauga.

CHATTANOOGA, Sept. 16.—With General W. S. Rosecrans as president, the Society of the Army of the Cumberland met yesterday on the field of Chickamauga, where, twenty-nine years ago, under the same leader, they fought in one of the bloodiest battles of modern times.

At night a public meeting was held at the First Methodist Episcopal church in this city, Mayor Andrews, a Confederate veteran, delivering the address of welcome, which was followed by the annual oration before the society by General H. V. Boynton, who was at the head of the movement to make a national park of the famous battleground.

While the attendance has not been as

large as hoped, it has been representative of the rank and file of the Army of the Cumberland. Among those present are Generals Rosecrans, Wood, Baird, Carter, Morgan, Reynolds, Wiseman and Warner.

G. A. R.

A Paper Issued by the Commander-in-Chief—Other Items.

ALBANY, Sept. 16.—Commander-in-Chief Palmer, G. A. R., has issued the following:

"The painful circumstances which prevents the president from attending the great reunion of the veterans in Washington is deeply regretted by all his comrades in arms, regardless of party. He was a participant in the grand review of the armies in 1865 and had taken a deep interest in the coming encampment, and it was expected that he would not only participate in the march, which promises to be the culmination of the great gatherings of the Union veterans, but in all the festivities of the week."

"The critical illness of his beloved wife has compelled him to remain by her bedside. Speaking out of the depth of my heart, and voicing the feelings of all my comrades, we pray that He who rules armies and nations give our president strength and fortitude to bear his great affliction, and that the partner of his life may be restored to health."

No Contagious Disease in Washington.

WASHINGTON, Sept. 16.—Secretary Foster and Commissioner Douglas had an interview yesterday evening about the sanitary condition of the city generally and of the camp built for the G. A. R., in particular. The secretary was advised that every sanitary precaution possible was being taken and that the rivers and depots were thoroughly guarded. It was not deemed wise or necessary to follow the example of other cities and establish a quarantine against New York so long as the disease in that city does not manifest itself in epidemic form.

Silent Society Will Be There.

INDIANAPOLIS, Sept. 16.—Walace Foster, secretary of the Silent Army of Soldiers, Sailors and Marines, announces that that organization will meet at Washington during the G. A. R. encampment. The headquarters will be in a tent on the White House grounds.

FIRE LOSSES.

New York City Sustains a Severe Loss.

Hotel Burned.

NEW YORK, Sept. 16.—A fire broke out early yesterday morning causing the destruction of George Meyer's carriage factory, in the rear of 225 and 227 East Thirty-sixth street.

The flames communicated with two furniture factories on East Thirty-seventh street, badly damaging them. Loss on stock and building estimated at \$100,000.

Hotel Burned.

ALLIANCE, O., Sept. 16.—The large hotel of E. Ebert, of North Jackson, was burned at midnight Wednesday night. Cause, defective flue. Loss, \$6,000; insurance, \$3,000 in the Germania.

HOMESTEAD AFFAIRS.

Two Accounts of the Recent State of Affairs.

HOMESTEAD, Pa., Sept. 16.—The advisory board issues a statement in which it asserts that developments during the present week have proved exceedingly favorable to the union side, and that the firm is almost blocked, so far as the operation of the plant is concerned.

The statement in part says: "Wednesday fifty-five of the best workmen quit, and we have evidence from three of them that since last Saturday the desertions have aggregated 600. As a result of the falling off in number of workingmen the only plants now

AT WORK.

Dr. J. S. Bonar and officers Lafayette Ressler and George Goepper, of Cincinnati, arrived last evening, and are acting with and under the authorities of this city in carrying out the precautionary measures referred to elsewhere.

A physician and two officers will be kept at Ashland to board all westbound C. and O. trains and make a thorough inspection on the way down. Dr. Bonar, Mr. Ressler and Deputy Marshal Mangum went up this morning.

Dr. Owens went to Cincinnati again this morning to confer with Dr. Prendergast.

PLAIN TALK.

T. E. Wilson, in the New York World, says: "The American Economist, published by and the national organ of the American League of Protected Thieves, objects to the use of harsh language in tariff discussion. It wants those fighting theft to admit that the Pennsylvania iron-master who obtains \$6.72 to pay over to his workmen and pays over only \$2.46 of it, keeping \$4.26 and swindling them out of their regular pay, may be both honest and philanthropic—a virtuous citizen and a self-sacrificing patriot. If any one will grant this, it will debate the tariff question, whether any protected manufacturer in the United States is not in possession of stolen property belonging to his workmen. The American Economist cannot longer fool the people into believing that there is any other question under consideration than one of theft."

"Protection is robbery."

"The protected mill-owner is a thief."

"The advocate of protection is an advocate of theft and belongs to the criminal class—either as the beneficiary of crime or its supporter."

The Public Ledger is badly mistaken. The BULLETIN is not disappointed over the returns from the election in Maine this week. Just the reverse is true. Democrats are very well satisfied. A falling off of from 6,000 to 8,000 in the usual Republican plurality is not calculated to prove a disappointment to any body except the leaders of the G. O. P.

In 1890 Governor McKinley, in speaking to Ohio farmers, said: "Under the McKinley bill you will get remunerative prices for your wool, for it affords protection. Instead of the present prices it will go up to 40 cents or above." Ohio farmers are selling their wool this year at an average of 8 cents a pound less than in 1890. The Governor is still trying to delude the voters.

The Ladies.

The pleasant effect and perfect safety with which ladies may use the California liquid laxative Syrup of Figs, under all conditions, make it their favorite remedy. To get the true and genuine article, look for the name of the California Fig Syrup Co., printed near the bottom of the package.

REVENUE AND TAXATION.

Some Important Features of the New Bill Now Pending in the Legislature.

A new bill on revenue and taxation has been reported in the House at Frankfort and is now being considered. Among its important features are the following: "The bill provides that all corporations, whether incorporated under the new laws of this State and in their transactions confined to the limits of the State, and all corporations that are subject by law to the regulations of interstate commerce, and all railroads and all foreign life, accident and fire insurance companies, and building and loan associations, etc., are made to pay a tax on their corporate franchises. The corporations that are subject to regulations by the laws of interstate commerce, in addition to their assessed property subject to taxation in this State, pay a franchised tax based upon the net earnings. All other corporations, except foreign life, accident and fire insurance companies, etc., and building and loan associations, pay a franchise tax upon whatever difference there may be between the capital stock at its market value and their assessed property.

"The amendments proposed by the committee simplify the bill, so far as it relates to corporations, by classifying them and taxing them on a uniform basis so far as possible.

"The assessment of industrial corporations is left to the Assessors, subject to appeal as to the value of their franchise to the County Judge, who may from evidence change the valuation. His valuation is final. Other corporations, except railroads, are assessed by the State Assessment Commission, composed of Secretary of State, the Auditor and the Railroad Commission. Railroads are assessed by the Railroad Commission.

"All taxes collected are paid directly into the Treasury, and at the time of payment a statement thereof is filed by the persons paying same with the Secretary of State."

"The Sheriff is made the collector of all State and county revenue from every source in his county, except license tax, which is collected by the County Clerk. The Sheriff's commissions are as fixed by the present law, except that in no event shall his salary amount to more than \$4,000 per annum independent of the pay of a deputy or deputies, whose individual salaries shall not exceed \$1,800 per annum.

"In all cases where penalties are attached to delinquents for the non payment of taxes the officer collecting the taxes is paid out of the penalties. The County Court appoints Auditor's Agents, and instead of their fees being paid by the State, they are paid from the penalties, and all money collected by them is paid directly into the treasury, and statements thereof filed with the Secretary of State at the time of each payment. To all taxes that are not paid by the first day of October there attaches a penalty of 20 per cent. This is done because there is no power of distraint given the Sheriff until after the tax-payer becomes delinquent, and this penalty is attached to compel the payment of all taxes by October 1."

Same Here—Enforce the Ordinances.

Every piece of paper in the street, every piece of decaying fruit, every fragment of garbage, every pile of sweepings from store or house, every pile of dirt and mortar where building has been in progress, and every garbage-strewn alley shows that some one has broken an ordinance. Until these ordinances are kept, Philadelphia will never have clean streets. The police can do no work more valuable than educating the public to the point of obeying these ordinances, now neglected and disregarded.—Philadelphia Ledger.

Tell the Truth.

The Frankfort correspondents of the Courier-Journal and Times sent out such one-sided, unfair and prejudiced reports that the country press can no longer rely on them for the real facts about the Legislature, or any other State matters. The correspondents are very capable men, but they have either become such intense partisans that they can see but one side, or they are acting under very bad instructions from the home office.—Elizabethtown News.

A Plain Statement.

A Hartford girl called on a physician recently who is as plain in his speech as his patient is in respect to her face. He tried to cheer her; her ailment being only a trifling matter, he said. "Oh, doctor," she groaned. "I feel worse than I look." Then, my dear young lady, there is no hope for you," replied the doctor.—Philadelphia Ledger.

The Size of Solomon's Temple.

Solomon's Temple, as described in the Scriptures, would not be regarded as a very imposing structure in this day and age of the world. Its length was 107 feet, breadth 36 feet, and it was 51 feet in height, with a portico or veranda 36 feet long and 18 feet wide. We have private houses that overshadow such an unpretending structure.—St. Louis Republic.

PYLES-VANSANT.

A Mason Countian Wins a Lovely Bride in Fleming—J. B. H. Tells of the Nuptials.

Wednesday afternoon, September 1st, at 4 o'clock, at the Presbyterian Church in Elizabethtown, a notable event in society circles transpired. Hymen's Altar was reconsecrated, and "two souls with but a single thought—two hearts that beat as one," made public their mutual devotion and plighted in the presence of a cloud of witnesses their sacred troth. In a graceful and impressive manner Rev. Dr. Seudder presided as high priest at the church nuptials, tying the golden knot and offering up the incense of love's young dream, and invoking upon the espousing couple heaven's choicest benedictions, while the charmed circle around that chosen altar intoned a deep, prolonged, but inaudible, "all happy constellations on this hour shed their selectest influence." As the bridal party passed down the aisle the soothsaying strains of "Call Me Thine Own" was played by the organist, Mrs. Harper. The groom, W. E. Pyles, is the youngest son of Mr. John Pyles, one of the solid widowers of Mason, is an ex-merchant and will soon go to farming on his own account. He is in his twentieth year.

The bride, Miss Lillian H. Vansant, is a lovely demil-blond, sweet sixteen, daughter of Mrs. Mary Vausant, one of Elizabethtown's most attractive widows.

The maid of honor, Miss Linda Allen, is one of Fleming's prettiest daughters, slender, graceful, exquisitely formed, fit bridesmaid for so charming a bride. The best man, Jack Vansant, a cousin of the bride, was dressed like the groom, in full evening costume. The nobly ushers were the leading blue-bloods of Mason and Fleming—Wood Brownling and George Lougnecker, of Mason, Charles Hood and T. C. Dougherty, of Fleming. The music was furnished by Mr. and Mrs. Robert Harper, cornetist and organist.

The bride was beautifully attired in a gown of cream-faille Franche of moire ribbon and chiffon. She wore a dainty and becoming hat of lilles of the valley and cream chiffon. She carried an exquisite bouquet of Bride roses. The maid of honor, Miss Allen, was charmingly attired in a taffeta Franche silk, similar to that of the bride but less elaborate. She carried a bouquet of Marechal Nell roses.

The church was decorated with potted flowers and palms, and so arranged about the altar as to form a complete arbor. With a committee of ladies Mr. Tom Dougherty was the artistic decorator. A variety of useful and ornamental presents were sent by distant friends and homefolks and laid on the bride's table. The antenuptial supper in honor of the bridal party at Mr. Samuel Howe's Monday evening last—the latest fad. This swell wedding attracted immensely, and many parties from neighboring towns came in their carriages to witness the pretty church ceremonies and its lovely decorations, and wish Mr. and Mrs. William E. Pyles hon voyage.

The bridal tour will take in the September saline breezes of "Old Point," where the honeymoon of repose will develop its mysteries and magnetism.

At home, after November 1st, "Locust Bend," the new dwelling now nearing completion, five miles north of Mayville. A pretty home in the bend of the M. and L. pike, overlooking hill and valley of the meandering North Fork, where the industrious groom can show his taste in landscape gardening, fancy fencing, stock raising, &c.

CAPTAIN HEFLIN.

Maysville's Popular City Marshal Answers the Final Summons.

The Community Shocked by His Sudden Death—Brief Sketch of Deceased.

Seldom has the community received a greater shock than it did this morning when the news of Captain Heflin's death spread over the city.

People who were present at the Council Chamber last night saw him in the enjoyment apparently of his usual health.

A few hours later he received the final summons.

Captain Heflin in company with City Physician Owens spent yesterday at Cincinnati in consultation with the health authorities of that place in reference to the quarantine regulations referred to elsewhere. He reached home shortly after 8 o'clock, and was present at the Council meeting later, manifesting throughout a most laudable desire to do all in his power to place the city in thorough sanitary condition, and guard as far as possible against the threatened epidemic.

After Council adjourned he spent some time conferring with the Deputy Marshals and officers from Cincinnati giving them instructions. About 12 o'clock he went home, and was accompanied to his door by Deputy Marshal Mangan. On entering his bedroom Mrs. Heflin noticed that his breathing was rather labored, but thought it was caused by his walking home. He had some trouble removing his clothes, and she finally had to assist him. On lying down his breathing became louder, and finally alarmed his wife. She attempted to arouse him, but he had passed into a semi-conscious or unconscious condition, and she started her son at once for Dr. Owens. The latter responded at once to the hasty summons, but it was a case where physicians' efforts were of no avail. The stricken man breathed his last a few minutes afterwards.

Deceased had been in declining health for some time. He suffered from hypertrophy of the heart, and his sudden death, while a shock to the community, was not in the nature of a surprise to his physicians and those acquainted with his condition.

Captain Heflin was born at Springfield, Ill., and was forty-seven years of age. Most of his life was spent in Maysville. His wife, who was a Miss Craine, survives him and he leaves eight children.

Deceased was first elected City Marshal in 1873, and served several terms. In 1886 he served as Deputy under Mr. Redmond. In 1887 he was again chosen Marshal and had held the office ever since, being a candidate for re-election at time of his death.

During Garfield's and Arthur's administration, he served as a Deputy under United States Marshal Auxier, and in 1885 he was a Detective on the C. and O. railroad. It was while acting as Deputy United States Marshal that the horrible outrage and murder of the Gibbons and Thomas children was committed at Ashland, and it was through his shrewd work that the mystery surrounding the crime was unraveled, and the murderers Neal, Ellis and Craft brought to justice. The case was one of the most noted in criminal annals, and the exciting incidents connected with the trial and execution of the murderers are still fresh in the minds of newspaper readers. The case gave deceased a wide reputation as a detective. He was one of the bravest and shrewdest men who ever held office, and was one of the best and most popular Marshals the city ever had.

Deceased was a member of Maysville Cominadery No. 10, K. T., was a charter member of Limestone Lodge No. 36, K. of P., and also of Maysville Division No.

6, U. R., K. of P., and at the time of his death held the position of Colonel of the Second Regiment of Kentucky, U. R., K. of P. He was also a member of Joseph Hesler Post, G. A. R. During the late war he was a member of the Tenth Kentucky Cavalry.

The funeral arrangements have not been completed, but the services will be held Sunday afternoon at 2 o'clock.

Mrs. O. N. Weaver, of Minerva, received painful injuries in a runaway accident a few days ago. A horse she was driving took fright at some cows and ran off, overturning the buggy and throwing Mrs. Weaver against the fence, breaking several of her ribs and bruising her badly. Her foot also caught in the wheel of the buggy as she fell out, breaking one of the small bones of the ankle. It will be several weeks before she is out again. About a year ago her daughter, Mrs. Charles Biggers, met with a similar accident in the same neighborhood.

AN exchange says that "a person in good health, swallowing but an extremely small amount of the germs of cholera, may escape the dread disease by the free use of lemon juice and water, or sulphuric acid in the proportion of half fluid drachm to a tumbler of water. In other words, acids prevent the growth of the cholera bacillus."

PRECAUTIONARY

Measures Taken by The Council to Fight The Cholera.

CITY PHYSICIAN OWENS TO CO-OPERATE WITH COUNTY BOARD OF HEALTH AND CINCINNATI OFFICERS.

A called meeting of the Council was held last night to consider measures pertaining to the health of the city. The object was to adopt measures and agree upon plans to prevent, if possible, a visitation of the cholera.

In the absence of President Cox, Mr. Wadsworth was chosen temporary Chairman. Mr. O'Hare was excused, and Mr. Kehoe was chosen temporary Clerk. Most of the members were present.

Mr. Wadsworth opened with a few remarks explaining why he had called the meeting. Dr. Owens, who was in Cincinnati yesterday conferring with Dr. Prendergast and the Board of Health of that city in reference to quarantining against New York, was called upon and explained at length the plans Dr. Prendergast suggested. Cincinnati authorities were anxious to co-operate with Maysville, and would send a physician and two officers here to act with and be under the authority of Maysville's officials. All C. and O. trains would be thoroughly inspected and every precaution taken to prevent any case of cholera from being brought into the city. Cincinnati would bear all the expenses of the men sent here to co-operate with the local health authorities. It was the intention to confer with local and State boards all along the route, and make the inspection thorough from the time trains left New York.

Remarks were made by Dr. Bonar, of Cincinnati, Dr. Adamson, Dr. Phillips, Dr. Pickett, Postmaster Davis, Councilman Wood and others.

An impression had got abroad yesterday that Cincinnati wanted to make Maysville a quarantine station and dump any cases here that may be found on trains. Dr. Owens and Dr. Bonar stated that this was not the intention. Cincinnati's officers would be under the control of the local authorities and it would be Maysville's own fault if anything of the kind should happen.

The discussion lasted for some time. A motion offered by Mr. Blatterman was finally adopted, without a dissenting vote, to refer the whole matter to City Physician Owens, with authority to act in conjunction with the County Board of Health and co-operate with the Cincinnati authorities. Dr. Owens is to employ assistants if he finds it necessary.

On motion of Mr. Newell, the Health Committee—in conjunction with the City Physician and the County Board of Health (composed of Drs. Pickett, Adamson and Cartmell) was authorized to establish a hospital, if it should be found necessary.

The City Marshal was directed to notify citizens to dump all garbage or refuse matter in boxes or barrels. The garbage is to be carted to the river, dumped in a flat, and emptied in midstream. Captain Phister of the ferryboat offered to do any towing necessary free of charge, and the offer was accepted.

The Health Committee was directed to thoroughly disinfect the dumps on Second street extension and at Hunter's mill. Council then adjourned.

PURELY PERSONAL.

Colonel C. B. Childe, of Cincinnati, was in town yesterday.

MISS SALLIE WARFIELD BURGESS is at home after a visit of several weeks in Central Kentucky.

MR. THOMAS PARRY, of the Kansas City Times, is making a brief visit to his mother near Washington.

MR. JOHN FISHER, Sr., who has been quite ill for some time past, was a little improved yesterday.

A COLORED LAWYER.

Mr. James R. Spurgeon, colored, of Richmond, Va., was, on motion of Mr. L. W. Galbraith, sworn as an attorney in the Mason County Court yesterday. Mr. Spurgeon is one of the brightest young colored men of the country. In 1890 he graduated from the Hampton Normal and Agricultural Institute, the honor of Valedictorian being conferred upon him by the class. The following year he entered the Law Department of Yale College, from which he graduated last June.

While at Yale he was elected a member of the Kent Club, an association of students numbering sixty-four members, and was honored with the position of Treasurer. Last May he was one of the eight students selected to contest for the Dean Wayland prizes in the Kent Club debate. Mr. Withey, a white student from Mexico, Mo., was one of the chosen eight, but he refused to take part in the contest. Mr. Spurgeon will open an office in this city and engage in the practice of his profession.

FRANCIS A. HOBART, a prominent Republican of Braintree, Mass., and for thirty years Chairman of the Republican Committee of the place, is out against the re-election of President Harrison. Mr. Hobart leaves the party because it is committed to the high tariff policy and because, as he says, "while I believe in fully protecting the right of every voter to cast his vote fearlessly and have it honestly counted, I am opposed to the principle of the Election or so-called 'Force bill,' as proposed by Lodge, and now attempted to be ignored, but incorporated as part of the Republican platform, which must inevitably follow as the result of the re-election of President Harrison."

PNEUMATIC MAIL CARRYING.
Numerous Bids for the New Method
Opened by Wanamaker.

WASHINGTON, Sept. 16.—Postmaster General Wanamaker has opened a number of proposals under the act authorizing him to "examine into the subject of a more rapid dispatch of mail matter between large cities and postoffices and transport between intermediate cities by pneumatic tubes or otherwise," with the view of ascertaining the cost in advance. The purpose in asking for these proposals is to obtain data, which will be made the basis of a report to congress.

The Pneumatic Transit company of Philadelphia, proposed to lay pneumatic tubes in Philadelphia. If found satisfactory the system will be leased to the government, or it may be purchased.

The Kelly Pneumatic Tube company, of Chicago, proposed to build any line the government desired, provided the government would agree to either lease or purchase it when convinced of its entire practicability.

The Collins Automatic Pneumatic Switching Tubes company, of New York, expressed a willingness to enter into a contract with the government.

The United States Automatic Dispatch company, of New York, offered the government the right to use its system of New York and Brooklyn at an annual rent of \$150,000.

The Beach Pneumatic Conveyor company, of Chicago, proposes to license its system to the government.

After the bids had been read the postmaster general announced that he would appoint Second Assistant Postmaster General Bell, Third Assistant Postmaster General Hazen and Mr. Maynard, of the inspection division, as a committee with authority to employ an expert to examine and report upon the merits of the several systems. He asked for the assistance of the supervising architect of the treasury. It is thought the committee will begin work at once.

Cattle Thieves Caught.

BROWNSVILLE, Tenn., Sept. 16.—Burt Smith and G. H. Harper, white, and Sandy Shaw and Jim Shaw, colored, residing five miles west of this city, were arrested yesterday for cattle stealing. A band of thieves infests the country from the Tennessee to the Mississippi river, stealing horses and cattle. White men are at the head of the gang. They procure negroes to drive cattle and stock of every character away, pretending they have purchased them. A great many valuable horses have also been carried off.

Still Deadlocked.

TOLEDO, Sept. 16.—There is no material change in the fight for the Republican congressional nomination. Forty-four ballots have been taken, and the strength of the various candidates remains the same as at the beginning of the fight. The candidates are: Hon. James M. Ashley, J. Kent Hamilton and Hon. Charles P. Griffin, of this city; Dr. Lincoln, of Bowling Green, and J. H. Brighton, of Delta.

Will Fight the Case.

INDIANAPOLIS, Sept. 16.—The Democratic state central committee was in session yesterday, conferring upon the question of fighting the suit to overturn the legislative apportionment of 1891. The committee empowered Chairman Taggart to employ counsel and do whatever was necessary in the case.

International Money Conference.

VIENNA, Sept. 16.—It is announced here that the international monetary conference will meet in Brussels probably in October. The delegates of the Latin union will convene in about a week to arrange for concerted action in the conference.

Fight at a Fair.

COVINGTON, Ind., Sept. 16.—Yesterday evening, while the fair was in progress, a man giving his name as John Jones, stabbed Frank Hull, one of the gatekeepers. Jones was brought before the mayor and was committed to jail. Hull was not seriously hurt.

Crops Destroyed.

LAWRENCEBERG, Ind., Sept. 16.—There was a heavy fall of hail in the western part of this county. It fell to the depth of from three to four inches, cutting every blade from the standing corn and in some places remaining unmelted until late in the evening.

Shot a School Teacher Dead.

VIENNA, Sept. 16.—At Tarnopol, in Austrian Galicia, a school boy named Joachim Schewd, exasperated beyond endurance by the harshness with which he had been treated by Professor Glowacki, shot the professor dead as he was leaving the classroom. Glowacki was noted for his severe treatment of the children under his charge. He then shot himself.

Forger Confessed.

WABASH, Ind., Sept. 16.—Frank Languard, the German who four weeks ago, obtained \$300 at the Wabash National bank on a forged note, yesterday pleaded guilty in the Wabash circuit court and was sentenced to two years in the penitentiary. All the money, except \$100, has been recovered.

Street Car Employees Organize.

INDIANAPOLIS, Sept. 16.—The Amalgamated Association of Street Car Employees was organized yesterday by the adoption of a constitution, the headquarters being in this city. J. E. Husted, of Toledo, was chosen president, and J. P. Riggs, of this city, secretary.

Canadian Canal.

OTTAWA, Sept. 16.—Lending government organs are urging the necessity of constructing a canal between Lake Erie and Lake St. Clair. This would make Canada independent of the United States in respect to the canals and save 130 miles of waterway.

Mob After a Murderer.

LEXINGTON, Ky., Sept. 16.—Alonzo Brookshire was secretly taken from the Lexington jail yesterday afternoon to Frenchburg, for trial for murdering Jaiher Tipton and Deputy Sheriff Howard. The news comes from Mount Sterling that a mob of one hundred men, armed to the teeth, left there late last night for Frenchburg for the avowed purpose of lynching Brookshire. They say they will not wait for night, because they have been foiled so often before.

Head-End Collision.

MARSHALLTOWN, Ia., Sept. 16.—A head-end collision occurred two miles from here on the Chicago and Northwestern railroad at 11:30 yesterday between two freight trains. Engineers Ashton and Howe and Fireman Simebaugh were killed instantly. An emigrant was also killed. Fireman Tusing escaped death by jumping, but was badly injured. Several other persons were injured, but not seriously.
